

Connect to the SU-Secure Wireless Network using a Blackberry

This document will give you instructions on how to connect your Blackberry to our SU-Secure wireless network.

Manual Setup

Not all Blackberries are Wi-Fi enabled. If yours is, you can set it up by doing the following:

1. Select your **Blackberry Menu** button and click **Manage Connections**.
 - a. If you don't see this, while in the Menu select the **Blackberry Menu** button again, and choose **Show All**.
2. Choose **Set Up Wi-Fi Network**.
 - a. This may also be listed as **Wi-Fi Options**.
3. Click **Next**.
4. Choose **Scan for Networks**.
 - a. If prompted, click **Turn Wi-Fi on**.
5. Choose **SU-Secure**.
6. Enter in your **SU username** and **password**.
7. Select **Connect**.
 - a. You may be asked to click **Next** instead.
8. If you want to save that connection as a profile, click **Yes** and follow the remaining steps.
9. Click **Finish**.
